Election/Restrictions

A telephone call was made to Mr. Eric Prager resulting in a return call from Mr. Louis Deljuidice, Reg. #47,522 on 20 July 2004 to discuss an election to the restriction requirement below, but did not result in an election being made.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 22, 23, 26-30 drawn online account linked to electronic works, classified in class 705, subclass 26.
- II. Claims 15-21, 24, and 25 drawn to tagging electronic work for access and transmission, classified in class 705, subclass 51.

Inventions I-II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility as noted above. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).
